Luxury vinyl floors
for every
room and style

The heart of your home

The heart of your home

Moduleo[®] makes your life easier & your home more beautiful

A lasting partnership

Come home in a good mood every day. To a safe haven. In the knowledge that your faithful companion will be there. Warm feet. **Ready to make your life better, more attractive.** Yes, we're talking about Moduleo[®]. The dream floor. A reliable partner in your home.

It all falls into place

Moduleo[®] goes deeper than love at first sight. You'll keep on falling – gently – for the many advantages. As well as an attractive appearance, this floor offers an exceptionally hard-wearing top layer. This means **less wear, less maintenance and no fuss.** More time for yourself and your family. With Moduleo[®] it all falls into place.

See also **Practical advantages of a Moduleo[®] floor** on page 4.

Why choose Moduleo®?

As well as looking gorgeous, Moduleo® also provides a host of practical advantages. Our floors are scratch- and stain-resistant, easy to maintain, sound-dampening and much more. So you don't have to take special care with your floor and you won't spend hours and hours cleaning it. Your visitors – as many as you want – will also love it.

Warranty		15 year	20 year	20 year

23 – Intensive residential use

33 – Intensive commercial use

42 – Light industrial use

Composition

The unique composition of the Moduleo® planks and tiles provides a whole host of advantages. The layers of glass fibre and vinyl guarantee the floor's dimensional stability, while the wear layer ensures long life with little maintenance.

Protective layer

All our products have a protective coating of Protectonite®, making them even less prone to wear and scratching, and a moisture-proof finish with a unique lifelike texture.

All Moduleo® products are available in a **glued** or **click version**. More details on pages 54.

 **moduleo**
Design Floors

Practical advantages of a Moduleo® floor

Water- and slip-resistant

Moisture-resistant, ideal in kitchens or bathrooms when there is a higher risk of slipping. Firm under foot, with a slip resistance value of R10.

Strong acoustic insulation

Moduleo® produces perfect acoustics in every space. A sound-damping foundation reduces noise to a comfortable level.

Dirt repelling and low maintenance

The protective layer repels dirt, dust mites and other allergens. Simply sweep, mop or vacuum to keep your floor spotless and hygienic.

Mark- and stain-resistant

The top layer means that this floor can take a knock or two. Marks and stains can be removed in seconds.

Minimal residual indentation

Wear-resistant, proven to withstand the impact of intensive use – including heels – and stains. Ideal for busy spaces.

Ideal for renovations

Moduleo® floors are thin and flexible, which means they can often be installed on top of your existing floor, provided it is level and pressure-resistant. That saves a lot of time and effort.

Suitable for underfloor heating

Moduleo® feels warm and is perfectly compatible with underfloor heating.

IMPRESS – Scarlet Oak 50274

Moduleo® combines the look, durability and quality of natural materials with the ease of installation, low maintenance and convenience of a vinyl floor.

The best of both worlds.

TRANSFORM – Fazino Maple 28950

What makes Moduleo® so **unique**?

Minimal shrinkage and expansion

Our patented system with double glass fibre layer guarantees the exceptionally high dimensional stability of every Moduleo® design floor.

Warranty

Guaranteed quality, up to 20 year warranty.

Indoor Air Quality

Moduleo® has earned a host of international certificates: ISO 9001, ISO 14001, inside air quality A+, BRE A+.

Natural look & feel

Inspired by nature, the refreshing design and added texture create a natural appearance and touch.

Extra large design

Extra sharp and an extra large design with few repetitions to create a unique, natural look.

Pin-sharp HD print

Highly realistic designs thanks to a unique printing technique, so even the smallest details are in sharp focus.

V groove

A natural look and feel thanks to a seamless V groove on every side.

Protectonite® PU wear layer

Scratch- and wear-resistant thanks to the unique Protectonite® PU wear layer, which protects the floor from scratches and dirt penetration, ensuring the design remains in perfect condition.

MODULEO FLOORS
ARE IDEAL
FOR RENOVATIONS!

Moduleo® Select

Looking to select a unique design for your home?

With Moduleo® Select you no longer need to choose between form and function. This floor takes your room to a new level. Moduleo® Select is perfectly suited to the rough and tumble of family life, while also being easy to clean, saving you time to do something more fun.

The best of many worlds

Moduleo® Select combines the **natural elegance** of stone and wood with the **practical advantages** of wear-resistant vinyl. Functional design in 32 stylish patterns. Select makes your life easier – except when it comes to choosing! The heard-wearing Protectonite® PU layer provides **protection against moisture** and flaking. Ideal for bathrooms and kitchens.

Get a lot of people coming to take a peek around your new home? The more the merrier! Moduleo® Select is **wear-resistant**, so even a big crowd is no problem. And it's easy and quick to clean. If you do have a problem, there's no need to fret: your floor comes with a **15-year warranty**.

Timeless beauty

Moduleo® Select presents designs of timeless beauty, inspired by the riches of nature. Floors that function effectively in any room or environment. Trendy and classic designs in a gorgeous pallet – you'll always find something you love.

Moduleo® Impress Want to be impressed?

The name of our latest collection immediately makes clear what the collection represents: a truly unique impression. The 'embossed in register' procedure contributes to the true-to-nature look and feel of all the Moduleo® Impress floors.

Embossed in register

The Impress collection brings to life the smallest details of real wood, demonstrating the true beauty of nature. Impress features an incredible registered emboss texture allowing you to see and actually feel the depth of the grooves, lines and knots of the wood.

Inspiring floors

The result is 22 stylish, true-to-nature designs that cover all contemporary interior design trends. Floors with an unrivalled realistic look. Inspiring floors. Floors that impress.

Click installation

► Clicking

Dryback installation

► Gluing

The planks and tiles are installed as floating floors on a sturdy, even surface or underfloor. This makes gluing superfluous.

This is the traditional installation method. The planks and tiles are glued with a special adhesive to a thoroughly prepared surface or underfloor that is hard, dry and flawless.

LockXpress

The unique LockXpress [LXP][®] system with practical tooth-groove connection ensures easy, convenient installation.

Xtrafloor

We advise the use of Xtrafloor[®] underfloor as a leveller and to further improve sound-dampening. For more information about Xtrafloor products: www.xtrafloor.com

See www.moduleo.com for installation instructions.
We recommend having your floor installed by your Moduleo[®] dealer.

Cleaning & maintenance

► Dust regularly

Download our
cleaning and
maintenance
instructions at
www.moduleo.com

► Clean up spillages with a slightly moist mop

Clean regularly

Remove everyday dirt with:

- Broom
- Duster
- Vacuum cleaner

Remove stains with:

- Moist cloth
- Absorbent pad (not a scourer)

Mop with:

- Moist micro-fibre mop
- Regular mop (as dry as possible)
- A non-aggressive cleaner like Xtrafloor (www.xtrafloor.com)

Good cleaning and maintenance help preserve the appearance and extend the life of a Moduleo® floor.

Cleaning frequency depends on how intensely the floor is used, how many people walk on it, how dirty it is, what colour and what type it is.

Moduleo® floors are given **extra protection** by a Protectonite® lacquer on top of the resistant wear layer. This lacquer protects against dirt and makes cleaning easier. Thanks to the Protectonite® layer, the floor does not need to be pretreated with a protective agent.

Important

- Always wipe up spillages before they penetrate into the floor and cause permanent discoloration.
- A Moduleo® floor can be slippery when wet.
- When a neutral detergent is required, always follow the supplier's instructions with regard to mixing and how much to use.
- After cleaning, you need to dry the floor within one or two minutes to ensure no cleaning solution and dirt is left on the surface of the floor.

Frequently asked questions

How can I find a Moduleo® dealer close to me?

Find your nearest Moduleo® dealer at www.moduleo.com.

» Are Moduleo® floors suitable for bathrooms?

Absolutely. Moduleo® floors are highly moisture-resistant. This makes them exceptionally well suited to moist spaces like bathrooms (but not in wet spaces like saunas and showers). Plus our floors feel warm and soft, a pleasure for bare feet!

» Are Moduleo® floors suitable for kitchens?

Absolutely. Moduleo® has a very hard-wearing top layer and is moisture-resistant. This means that a Moduleo® floor is well-suited to use in kitchens. Plus our floors are very easy to clean.

» Can Moduleo® floors be used with underfloor heating?

They certainly can. Moduleo® floors feel pleasantly warm, because they quickly take on the ambient temperature. But Moduleo® floors can also be installed over underfloor heating, provided this is done professionally. Underfloor cooling is not an issue either.

» Does a Moduleo® floor need a lot of maintenance?

Not at all. Moduleo® floors are low-maintenance and, unlike some other types of flooring, very easy to clean. The Protectonite® top layer makes special treatments and immediate cleaning after installation superfluous. If you do note your floor is getting dirty, you can clean it thoroughly with Xtrafloor®.

Your Moduleo® floor is easy to clean with a regular broom, micro-fibre cloth, vacuum cleaner or moist cloth. Regular cleaning keeps your floor looking beautiful for longer. Always use a non-aggressive cleaning agent.

» Can Moduleo® floors be installed over existing floors?

Yes, Moduleo® floors can be installed over many types of different floors such as concrete and timber hard level floors.

The floors do need to be properly prepared to ensure that they are sound, smooth, level and free from defects.

Please see www.moduleo.com for detailed installation instructions, with an overview of the installation requirements and the preparation required to install a Moduleo® floor.

» Can I install Moduleo® myself?

It is certainly possible to install the click version yourself. Moduleo® is easy to handle and cut. That being said, we advise you to have your Moduleo® floor installed by a Moduleo® dealer. That is your guarantee of professional finishing and you benefit from a full warranty.

IVC Group

Formed in 1997 IVC Group is a world leader in the development and manufacture of vinyl floors.

Six production units in Belgium, Luxembourg and the United States, employing 1500 people in total, manufacture some 100 million square metres of vinyl flooring annually

The IVC Group product portfolio comprises four brands: Leoline® (residential vinyl flooring on rolls),

Flexitec® (residential vinyl flooring on rolls in North America), Itec® (project vinyl flooring on rolls) and Moduleo® (high-end modular vinyl flooring for project and residential use).

In 2015 IVC Group became part of US listed company Mohawk Industries Inc., the global leader in flooring.

ECO? Logical!

The roots of our green production facility are in Belgium, which manufactures all our luxury vinyl floors in an ecologically responsible way.

Production with green energy

Our factory in Avelgem is equipped with three wind turbines that fulfil the strictest health and safety standards for noise and visual pollution. The turbines can generate up to 13.3 Gwh/year and provide for a third of the Avelgem IVC factory's energy needs.

Strict raw materials checks

Moduleo® consciously opts for production processes that meet the international standards. All suppliers must comply with REACH.

Made in Belgium

All Moduleo® designer floors are made in Belgium. Because our production is located as close as possible to our customers, we cut out polluting long-distance transport. That is a conscious decision, because we want to minimise our carbon emissions and ecological footprint.

Up to 50% recycled material

Moduleo® floors contain up to 50% certified recycled material. Post-industrial recycling also enables us to obtain an especially 'pure' type of PVC with a very limited impact on the environment.

Water-based inks and PU top layer

We only use environmentally friendly water-based inks and PU top layer for all printing processes.

Limited waste, extensive recycling

Moduleo® is always looking for new ways to package products, limit waste and maximise recycling.
